What is PvP in World of Warcraft? Im not going to walk you through what PvP is in the game. If you are reading this guide, you have probably encountered PvP at some point or another. You already know it is the facing off of Horde and Alliance characters in single combat or battlegrounds or the face off of teams in the Arena. What is important though is the details of how PvP works in the game the way it provides rewards and credentials that can be carried between different factions and your fellow players to show that you are a truly great player.
