David Powers has been professionally involved with the electronic media for some 30 years, mostly in radio and television - he was BBC Tokyo correspondent in the late 1980s and early 1990s - but more recently with the Internet. He built his first site in 1995, and was instantly hooked. Eventually, the sheer tedium of updating content convinced him there must be a better way. After a brief flirtation with ASP, he experimented with PHP, and found himself hooked yet again. A fluent Japanese speaker, Powers specializes in building Japanese-English bilingual websites, writing about Japan, and translating Japanese (he's translated several plays). He co-authored Foundation Dreamweaver MX 2004 (1590593081) and PHP Web Development with Dreamweaver MX 2004 (1590593502). Powers also worked as technical reviewer on a number of web-related titles for Apress. EAN/ISBN : 9781430200130 Publisher(s): Springer, Berlin, Apress Discussed keywords: Flash 8 (Software), PHP 5 Format: ePub/PDF
