Your Personal appeal on your web site matters to your visitors Who else wants to super-charge their web site into a fully-fledged marketing sales-conversion force by adding audio to their web site within minutes? ...And convert every visitor into a customer Its been proven... The use of audio on web sites has a dramatic effect on your visitors response to your sales message. In the world of online marketing, the main driving force that makes people place an order is credibility. A lot of people are hesitant to buy anything from some anonymous web site. By simply adding your voice to your web site, your customers can connect with you on a more personal level and overcome one of the biggest marketing barriers - thereby making them place an order. Adding streaming audio on your web site not only adds a more professional appeal and personal connection to your visitors, it literally forces your visitors to respond more positively to your sales pitch. If you thought adding streaming audio to your web site was hard or costly think again. You need to read below as this information could change the way you market online, resulting to enormous profits with your existing business or even new ventures. Instant Audio Creator allows you to instantly add audio to your web site with no special skills required
