Details: Alex Lewis is an original recording artist and music producer who is getting substantial notice. He writes and creates the music in an innovative visual way. For him, each song begins as a nearly finished product and is conceived as the soundtrack for that songs story. In an age of music so frequently attended by video production, he is truly an artist of the times. Each song is created and refined as its own video soundtrack. Alex brings the expertise of a video production artist as well, with nearly 10 years of experience telling original stories on film. He has taught music and film production using the state of the art software. That expertise allows him the unique perspective of a film-maker when each song is created. Alex produces music using state of the art technology, but technology is never what drives the music. Every note is original, and the creative engine is what he refers to as the magic" of the music itself. You will hear heart and soul in his creations. Every one original. Consistant in these songs, whether lamenting the challenges of this life, or celebrating the joy in the simplest things, is a message of hope. It is the positive, life-affirming character of Alexs music that makes each song worth owning and listening to. He will periodically offer a music video for a particular song and this is always another way to see the story that the song tells. You also become a part of that video experience when you listen to these songs yourself. And when you listen to the music of Alex Lewis, youre listening to his world. Step in. Welcome to it.
