Soul, reggae, blues, zouk, jive, dance, and Latin - a hotpot of world pop songs with delicious melodies and 'cruisy' grooves. 11 MP3 Songs WORLD: Reggae, POP: Euro-Pop Details: Hi to all listeners out there well Feel It! has finally made it to CDBaby - including 2007 UK songwriting contest semi-finalist - 'Soul Deep' So what do you get? well some have called it the chill out album after the dance feels of WOMP" - a few more laid-back grooves a bit more hiphop and funk than world perfect for that dinner/before the tropical pool party vibe think Michael Buble meets Bob Marley with Macy Gray... It starts with the very mellow Euro-pop feel and sound of Soul Deep featuring the Buble smooth vocals of Stuart McVicar and the plaintive French voice of Olivier LeJus. Next comes the reggae/ragga theme song for the album Feel It!. 'Come on home' is a more personal song about my daughter, 'Reggae Fire' is a Bob Marley inspired song sung by Winston Hazell. Next is the Macy Gray sound of Mishka singing 'Anything for you', then Chris Bright does a stirring rendition of a township jive inspired song, 'Saving Grace'. Some good ol' blues with Stuart again featuring Brian Somerville on trumpet. Party feel again with Mishka on 'Zouke', then me again on a reggae/funk feel with 'Jah Jah' and my favourite 'Valentine'. There is a bonus track remix of 'Soul Deep' inspired by Tony Flint's dance remix. Hope you enjoy the selection...
