I like effects which breathe in the atmosphere in a positive way. Windham Hill should have heard this one. I wanted to record an album with a healthy variety inside. One where all the songs DO NOT sound alike. I hope that someone could at attach themselves to at least one song. Hopefully, just one song might speak to you and might remind you of the past or present. I'm from Memphis, TN and am currently involved in a band called YES NO MAYBE, but I also play solo and try my best to promote original music. My past acoustic experiences include opening up shows for Leo Kottke, the Indigo Girls, and Joe Ely.
