The Fusion of Classic Acoustic/Electric Instrumental music with Harmonic and Melodic elements; Perfect with red wine or coffee. 8 MP3 Songs NEW AGE: New Age, JAZZ: Smooth Jazz Details:

Multi-instrumentalist Gordon Grey has been writing, arranging, performing and recording music since the dawn of time itself. His Grey Matter Studios has been the birthplace of countless iconic albums and musical journeys that have all led onward to new horizons in the creative field of audio reproduction. Grey and a host of studio sidemen - favorites from up and down the eastern seaboard - collaborated together to create the music presented here. You will ultimately be the judge of whether the sonic impact of these performances rip deep down to the soul, but mark my words: These visions of creativity's moments - forever laid down in the "groves" of digital perfection - will release in you the ability to see beyond the everyday mundane and open your eyes to a new level. And did I mention that these compositions go down perfectly with red wine in the evening, or freshly roasted coffee in the morning. A gentle rain and crackling fire also support the free flowing melodies and crisp sonic movements. I am not one to claim to fly where eagles dare. I have no magic potion to give you that will conquer your inner demons. I am just a musician; bred with the ability to create what I hear and feel is right. To quote the great Duke Ellington, If it sounds good, it is good. And I am proud to have been given the gift to create the music you are about to hear. Music that has been there since time began. I was just one of the many lucky ones to be chosen to free it for you. All I ask is...enjoy.
