Accomplished guitar playing alongside introspective, well-informed songwriting. 6 MP3 Songs FOLK: Alternative Folk, ROCK: Acoustic Details: This world certainly has its share of acoustic-guitar-slinging singer/songwriters, but even in such a saturated genre, Jay Hammond is already beginning to separate himself from the pack. Lyrics for the thinking man, great guitar playing, and a commanding stage presence, Hammonds music demands attention, so listen up! Jay has spent most of the past year in Boston, honing his craft and frequenting the cities vibrant folk scene. Jay's first commercial release, the "Darts in the Dark" EP is a collection of songs written during this period. Jay recorded and produced the entire record. Boston's "Modern Vintage Queen" Miss Tess makes the only guest appearance on the album with some great harmonies on the first two tracks "Choice" and "Gone." His career as a singer/songwriter is in its baby stages, but Jay has been a musician for most of his life. Growing up idolizing guitar greats such as Jimi Hendrix, and Stevie Ray Vaughan, as well as classic American songwriters, like Tom Petty, he quickly became infatuated with music, and formed a band to play around his hometown of Jackson, Tennessee. Jay wrote most of the music for his band, as well as being responsible for the booking and promotion of the band. Upon graduating from High School, Jay moved to Boston to study jazz guitar at the prestigious Berklee College of Music. With big dreams of becoming the next rich and famous New York jazz guitar player, he focused his efforts on the guitar, but something was missing. Late in his Berklee career, he started writing songs again, and things just clicked. Now, with a deeper knowledge of music and his instrument, he finally felt able to write the music he had been trying to write for years. Jay has recently moved back to Tennessee, and will be living in Brooklyn, New York starting in September. Jay's background gives him a unique musical perspective, and you can hear it in his songs. Hailing from Boston, by way of Tennessee, his music contains a very rootsy quality, while still

managing to stay relevant to the modern world. This is not an artist to look past!
