

Mp3 Jimmy Bean And The Playground Revolution - The Time Is Now

[DOWNLOAD HERE](#)

Fun, silly poppy punk rock music for younger kids. 8 MP3 Songs KIDS/FAMILY: Children's Pop, ROCK: Punk Details: Jimmy Bean and the Playground Revolution... The time is now for a kids music revolution! This unique CD was recorded entirely on a digital 8-track recorder at home by Jimmy and his Son Chad. Jimmy plays each instrument (not at the same time of course) and Chad comes up with lyrics and music ideas. Witty lyrics, crunchy guitars and some hooky melodies. Rockin' tunes about kid stuff, snails, girls, getting picked on and skateboarding. I like to call it kid friendly punk. When your child is too old for nursery rhymes but too young for the grown up stuff, this is right on the money. A CD perfect for parents who grew up on punk and skaterock or folks who just want to have some cool rockin' music without all the grown up themes or the bad words..... Think Ramones with a splash of the Descendents sprinkled with Angry Samoans... THE TIME IS NOW!... For Jimmy Bean and the Playground Revolution!
