Details: Smokey Joe recorded this cd after reading a phenomonal book, "Threading All Bases" because nobody ever thinks that they are a winner if they don't convince themself to be a winner for themself. The famous golfer is convinced after losing \$50 million dollars on wagering that he can still gamble people on slot machines! But, what Sam is not convinced of is that money in life is not going to satisfy what's happening in your life because Smokey's been there. The society we live in today is concerned of who can get ahead of somebody quicker than the other person. But, we never are concerned about other people who maybe never had a chance to win in life. Like, somebody who had a disability, that Smokey Joe knew in his life like Dear Myra. This cd is about winning strategy for producing, recieving, and convincing yourself to believe in yourself and not to believe in any idols. The professional golfer is not convinced that he's an alcoholic after going through several treatment centers, like Ford Treatment Center...because he's convinced he's in denial, people. Because he said he's addicted to whiskey..not beer. But people, when you listen to this cd, don't convince yourself that you can be addicted to one thing when it's another thing because you don't believe in yourself. The greatest thing in a professional baseball life was not signing a contranct for \$550,000...the biggest contract ever signed in the National League. The biggest thing was coming to Jesus Christ and turning his life over to a relationship, which brings you a new life.
