Durty South meets UK Grime via the Nasty North. Punk as fuck. 9 MP3 Songs HIP HOP/RAP: Southern Style, ROCK: Punk Details: Born in the durty, and raised on Miami booty-bass and punk rock, the mr. move is here to be the soundtrack to your best party. Lyrically, he ranges from instructions on how to get wasted properly and the resulting night of debauchery, to the following day of hung-over depression and the result of years of substance abuse. With every new song he writes, the ass-shakin' gets a little wilder and the legs spread a little wider. He has claimed that a huge goal of his is to write a song that 'causes sex.' He may have already done it. His live shows are a whole different experience. Sweaty, drunken, high energy rage fests that have been known to include sing alongs, chicken fights, salad views, and vomiting. Bring a fucking beer funnel or go the fuck home. Keg stands are in order, so bring your 'A' game. Buy the new album, Easy. Available NOW.
