Feelings and emotions masterfully expressed via wood and steel = SOULRESONANCE. ABOUT THE TOOLS: Soulresonance was recorded almost entirely on antique guitars including a rare 1913 Knutsen harpguitar. I personally restore the guitars as well as compose for each instruments own unique acoustical qualities. I am their fortunate caretaker in this life. ABOUT: SOULRESONANCE I am an old soul. I am composed of european descent. I am a seeker of knowledge. Lost technologies. My being has experienced many impressions. I am an eternal student of life and it's expression. My voice is of wood and steel. My soul's resonance has been influenced by travelings, ramblings, familiar strangers in foreign lands, and many sunsets and moonrises. I am a performer, an expressionist. I've been blessed to study with: Larry Coryell, Emily Remeler, Beppe Gambetta, Joshua Breakstone, and John Stowell as well as many other masters of the resonance. "All That Is Good", SOULRESONANCE.
