

Mp3 Unknown Tone - Failure

[DOWNLOAD HERE](#)

Experience the experimental breakbeat, rattle through your brain.and deep harmonies played with mean beats and basslines. Or something like that. 12 MP3 Songs ELECTRONIC: Breakbeat/Breaks, ELECTRONIC: Experimental Details: Unknown Tone uses the gift of experimentation combining dance, breakbeat, a touch of industrial, and orchestrated strings in to one... pretty mad all i can say. i guess when you hear the vocals in dreaming of twisted elks, Alien Neurotic Brain Disorder, and Scientist's Disease, you start to think, what da hell? the vocals are completely morphed in to something out of braindead or something, thats been dug up from the garden lol, but its cool effect leaves you wanting more. (What ever that means) for more info unknowntone myspace myspace.com/unknowntone
