

Professionalizing Offender Profiling

[DOWNLOAD HERE](#)

Offender profiling is now viewed as an integral part of serious crime investigations by many law enforcement agencies across the world and continues to attract a high public and media profile. Despite almost three decades of research and developments in the field, the public impression of offender profiling is still influenced by misleading media portrayals, which fail to acknowledge the significant developments in theory, research and practice. This book is the only book on the market to illustrate in detail the actual practice of Behavioural Investigative Advice, its diversity in application, the underpinning academic literature and the remaining research questions and recommendations. Focussing on the professionalization of this developing discipline, it provides a fascinating insight into the modern role of a Behavioural Investigative Adviser, dispelling many of the myths still associated with offender profiling, and illustrating the continued aspiration of contemporary practitioners to adhere to the highest scientific standards. It provides a journey through the significant efforts to professionalise both the process and product of Behavioural Investigative Advice, supported by relevant theoretical, methodological and operational considerations. Edited by and containing contributions from some of the most respected and experienced researchers and practitioners working today, this book will be essential reading for Police Officers, researchers, students and anyone with an interest in the professionalization and contemporary contribution of forensic psychology to 21st century criminal investigation.
