Are you sick & tired of figuring out on how to get your own support ticket system installed and running on your own server? Heres How You Can Quickly & Easily Set Up Your Own Support System That Will Always Deliver 100 Of Your Messages To Your Prospects & Customers Ill Personally Show You Where To Get The Script For FREE And How I Install The Script And Get It Up Running In Less Than 30 Minutes Dear Friend, Enough is enough! I have been getting hate emails from my prospects and customers because they accused me of not replying to their emails. A few of them even asked for refund and tried to do a chargeback. They thought I was a scammer who had ripped them off their hard earned money and did not deliver the products to them. The truth is I DID reply to ALL of their emails. However, some of the emails did NOT reach the recipients inboxes. Sounds familiar? This Is The REAL Situation That We Are Living In Right Now Legitimate emails are wrongly getting blocked by spam filters. Due to the overwhelming spam problems, ISPs and email service providers have been extremely tough on blocking spam emails. It is good though BUT we are seeing now that even legitimate emails are wrongly being blocked. Imagine this: Customers swear and curse you because they claim that you do not send

them the email download instructions. Your prospects or potential buyers reach your site and they seem interested in your product. But before that, they need to confirm with you something so they ask you some questions. You reply all their emails BUT somehow the messages do not reach their inboxes. Guess what? LOST SALES! -- LOST THEIR TRUST ON YOU! Imagine How Much Money You Have Lost Surely you dont want to find yourself in that situation do you? That is why you must NOT rely on emails. Instead you should use a customer support system so that messages are written and read on the webpage instead of going through emails. But Installing A Customer Support System Script Can Be A Daunting Task You know something? Ive been in your situation before. I cant wait to get started making money online but as I progress on all the necessary tasks step-by-step, there seems to be HUGE obstacles along the way. I realize that I need many scripts and softwares to run and manage my business efficiently and effectively. One of the much needed scripts is an ad tracking script. After buying the script, I need to learn how to install it. And since I have no clue on how to do it, I hired a programmer to do the task. Yes I heard you. Another chunk of bills flew out of my pocket... But the worse part is still not finished. There are many more scripts that I need to install and thus, if I dont pick up some skills in this area, my bank account will be doomed.. :-(You Dont Have To Go Through All The Suffering That I Have Experienced My 8-part video tutorials reveal how you can install a customer support system script in just less than an hour and start using it to keep in contact with your prospects and customers!
