

Cycles Of Poverty And Crime In America's Inner Cities - Lewis D. Solomon

[DOWNLOAD HERE](#)

The inner cities in America remain concentrations of the uneducated, unemployed, underemployed, and unemployable, and the cycle repeats itself generation after generation. A complex and interrelated web of issues plague inner-city black males: joblessness; the failure of public education; crime, mass incarceration, and drugs; the collapse of married, two-parent families; and negative cultural messages. Rather than abandon the black urban underclass, Solomon presents strategies and programs to rebuild lives and revitalize America's inner cities. These approaches are neither government oriented nor dependent on federal intervention, and they are not futuristic. Solomon's strategies focus on the need to improve the quality of America's workforce through building human capital at the socioeconomic bottom. The goal is to enable more people to fend for themselves, thereby weaning them from dependency on public sector handouts.
