

Dynamic Content Organizer - Hands Off Management Solution

[DOWNLOAD HERE](#)

Discover how to effortlessly earn massive membership site riches without ever having to write or create new content The laziest and most productive way to manage your business. Completely hands off, totally automated, and very profitable (You know what they say, work smart, not hard) Dear Online Marketer, Membership site riches are a big topic in the online marketing world nowadays. You sell someone a product once, and you make a small profit. Then you have to spend the money and all the effort to get them to buy something all over again. With membership sites however, once you sell a membership, you get paid every single month for as long as they stay a member. It's this almost effortless reoccurring income that's so attractive to marketers. But there's a catch. It takes a lot of effort to keep creating content for members monthly, and updating their members areas. Call me lazy, but I really would rather spend time on promotion than on things like that, so I went ahead and created a piece of software that did all the work for me. I've been lazier and richer ever since, And it's a cinch to copy me (And I give you my complete and express permission to do so) Imagine the situation. You want to put up a membership site,

but don't want to update your website every single month for new members. In fact, even if you wanted to, it's very complicated to set up a website that will put new content in members areas depending on how long they've been with you. Kind of a time release system. So here's what you do instead.. You create all your content up front, load it into some software, then start signing people up. The software then automatically releases your content to the members when they qualify for it. Meanwhile, you can forget about the site entirely, and go about your new projects and promotion while the money roles right into your bank account. Simple huh? But it's not just membership sites The possibilities are almost endless From blank piece of paper to product launch. Every step explained and demonstrated as it happens (This is a real life case study after all) - Effortlessly manage and maintain membership and content driven websites, either paid, or free ones. You don't need to lift a finger. Set the site up, set some dates in the easy to navigate control panel, and the script will release the content to your members at the right time, leaving you to concentrate on other aspects of your business - or just take a well deserved break. - Full support for members areas and other scripts! No matter which scripts you use to run your website. Because the dynamic content organizer manages your site page by page, and account by account, it will never interfere with existing membership management, affiliate management or payment processing scripts, granting you a reliable, smooth and error free experience. - Time release content to individual members or across your whole website. It's your choice entirely! Whether you want to release content to members after they've been a member for a certain amount of time (set by you), or you want pages outside of your members area to change for everyone to see, DCO does it all automatically. - Manage individual member access. With DCO running your members areas, each member will see different content depending on how long they've been with you. You can release software to them after a period of time, new articles, audio, video, downloads, and in fact any media you wish. - License allows support of as many websites as you like. Whether you have one website, or ten websites, you can let the script automatically manage your content for you without having to pay additional charges per domain. - Member profile management allows you to password protect members areas, update member profiles, keep track of your customers accounts, and more! Don't have a membership organizer already? Not to worry, because DCO will in fact manage your password protected area for you! - (OPTIONAL) New feature additions! Don't think for a moment we're just going to give you this script and leave it at that. We'll be adding new features for you in the future too, so check back regularly, and keep your contact details

up to date. This comes free of charge too, you won't have to pay a penny for updates to the script. - Quick and easy installation, even if you've never installed scripts on your server before. All you have to do is upload the files, and follow the detailed user manual to set the script up. You can be up and running in under 20 minutes from now, with your own dynamically managed, automated membership site. You can get your hands on all of this value, the product itself, you'll be ecstatic with the result How much are we talking here? Not \$500, not \$300, not even \$200, but for a mere \$9.95, you can get your hands on the whole package. I use all of these tools and this knowledge to make the cost of this twelve times over every single day of every single week. think what having the same insider info and expertise could do for you. This is a rare offer. Don't miss the opportunity! Get it now with PLR - Private Label Rights for \$9.95 I offer NO Support for installation if you cannot do it get a professional to install it If you like to ask for refunds after purchase then i like to decline as well. This is a digital product with no refunds it is up to you to install and administer it.
