country blues 8 MP3 Songs BLUES: Acoustic Blues, COUNTRY: Country Blues Details: Catahoula Brown is the old blues spirit inside Nova Scotia musician Chris Weagle. His debut CD, "Cur Dog Blues", recorded at Redfish Audio in Lunenburg, is a collection of gritty songs about trains, frustration and love. They rise out of musical traditions that have been part of North American life for many generations. Chris Weagle's notions of the blues aren't the kind you can get from a book. He learned his life lessons on the production lines of the factories he's worked in since he was a teenager. Catahoula Brown's music is true blue-old as the Appalachians and as suprising as hail on a hot summer day.
