Anti-Nashville Country Folk Rock 14 MP3 Songs COUNTRY: Country Rock, ROCK: Folk Rock Details: A new solo album by this Portland Oregon based singer-songwriter. Release Date: November 30, 2004 14 songs!!! (For bio, check out "The Road Of Life" album.) This album features a wide variety of retro rock influences with a country folk feel to it. This is roots music. From the bare bones country folk of "Anywhere But Here" to the futuristic rock of "21st Century Man." His influences range from Little Richard and Chuck Berry, all the way to The Moody Blues. You can hear all those influences in every song. "Written In Ashes" keyboardist Damon Law lent his talents on "21st Century Man" and, on the must listen to, ANTI-WAR ballad "Fighting For The Cause" with stunning results. Also of note; Track 4, "A Creature Of The Sea," was written to call attention to the problem of the current sonar being used by the US Navy. This new sonar is so powerful that it floods the worlds oceans with up to 200 decibels of sound with disastrous results for our sea mammal friends. Says Chris: "I thought the whales should have a voice in the matter." Be sure and check out Chris' other two albums, "The Road Of Life," and "The Folk Code" right here at CD Baby! Just click on the links below. Twang Music
