Contemporary Folk, fused with other styles 12 MP3 Songs FOLK: Modern Folk, COUNTRY: Country Folk
Details: Doug Harper is a songwriter, performer and recording artist in the folk tradition, spanning a range of styles. These original song lyrics have a redeeming value and create vivid pictures in the imagination. Audiences come away warmed, amused and inspired. A listener once remarked, "I feel like I've just been read to!" "Hybrid Folk" is the term coined to describe the writing style. "Travelogue" is a collection of 12 originals. Variety is the operative word. It spans the range of contemporary folk with a dash of rock, a pinch of ragtime/swing and just enough country. "The Way to Treat a Lady" is a jazz tune that features his very talented wife, Shelley. The velvety harmonies heard on the other tunes are hers, as well. Enjoy!
