

Mp3 Greg And Sandi Gray - What I Know

[DOWNLOAD HERE](#)

"What I Know" is a collection of songs that musically uplift with a contemporary rock musical style, while lyrically take you down deep in your own emotions as well as into spiritual truths that will challenge your mind as well as your heart. 10 MP3 Songs GOSPEL: Contemporary Gospel, ROCK: Modern Rock

Details: Greg and Sandi have a background in theology as well as music, and have been in Pastoral service for almost 10 years. Their concern for individual's spiritual wellbeing is splashed across each song. Greg has been writing songs for years, but it has only been recently that Greg and Sandi have begun to share their lyrically driven songs with the public. Greg and Sandi's music ministry all started with some special music in churches, but quickly their songs were requested in recorded format. Greg then went to work with some very talented local musicians that came from a wide background of musical styles (from 80's and 90's rock to country to modern rock). The result is a musical style that accentuates the distinct character of the lyrics. So now the music that has been a local encouragement to many is available to all who feel they could experience a personal benefit from their ministry. These songs are not an attempt to copy today's modern worship music movement (there are many good artists already offering worship music), but rather this CD is an intentional blend of emotions and truths that go beyond praise, and dig deep into the spiritual lives of those who hear. Listeners have labeled this CD as not your typical Jesus music, which is something you will find to be true! We believe there is a reason God called together a songwriter (Greg) with a heart for communicating truth and a very impressive Singer (Sandi) with a heart for touching people's lives. The resulting combination is a presentation of truth in love that we trust honors God, and will strengthen your spirit! - Greg Gray
