10 tunes and 1 video. Duo Guitar oriented Blues, -W- a rock feel. Emphasis on vocals. Tongue in cheek -w- bitten tongue 9 MP3 Songs BLUES: Texas Style, BLUES: Rockin' Blues Details: Lb. Salt was conceived in 1975 by David Bowen and myself, but wasn't born until 1980, when we released the single, Was It Something I Said, and Didn't I. Although we got significant airplay regionally, nothing broke nationwide. New Wave was just being born, and major labels weren't willing to take a chance on us. William Geer heard some of my songs, and signed us to his label, Blyss Records. The result is this (enhanced)CD, which consists of 10 songs, on 9 tracks, and 1 video: If I'd Shot You When I Met You (I'd be getting out by now) These tracks have been compiled from years of struggle and disappointment, but I wouldn't have had it any other way. I like where I am now, and have discovered that if you hold on to your dreams, and rip the songs from your soul, life will take its course. I have lived these tunes, and wrote them down. I hope they will help you realize, we've all been there. Lb. Salt has opened for such acts as: Ted Nugent, Cheap Trick, Rare Earth, The Guess Who, and 4 dates with Metallica. Thanks for listening.
