Vintage 1970's style roots reggae music. 13 MP3 Songs WORLD: Reggae, ROCK: Ska Details: Original roots-reggae band Predator Dub Assassins was formed October 2001 and played their debut show at NYC's Continental to benefit the families of the victims of the 9/11 attacks on Manhattan. A loyal following developed around P-Dub, as people were quick to connect with the bands music. Since then the group, formed around multi-instrumentalist/songwriter Ras Timothy(aka Predator), has continued to enthrall live audiences everywhere with the Dub Assassins own brand of original 1970s style Rasta roots-reggae. Predator Dub Assassins released their first CD in July 2005 and, since then, have been performing non-stop to a loyal following which they have seen grow rapidly. Regular appearances at popular area venues continue to provide the group with a link to the NY/NJ scene from which they were spawned. Predator can also be heard on recent CDs by The Itals, Ronnie Davis, WestBound Train, Barry and the Penetrators, King Django, Dr Ring Ding, Stubborn Records, and; of course, Ska legends Inspector 7.
