

Calculus Of Variations, Classical And Modern

[DOWNLOAD HERE](#)

Contenu: A. Blaquiere: Quelques aspects geometriques des processus optimaux.- C. Castaing: Quelques problemes de mesurabilite lies la theorie des commandes.- L. Cesari: Existence theorems for Lagrange and Pontryagin problems of the calculus of variations and optimal control of more-dimensional extensions in Sobolev space.- H. Halkin: Optimal control as programming in infinite dimensional spaces.- C. Olech: The range of integrals of a certain class vector-valued functions.- E. Rothe: Weak topology and calculus of variations.- E.O. Roxin: Problems about the set of attainability. EAN/ISBN : 9783642110429

Publisher(s): Springer, Berlin Format: ePub/PDF Author(s): Conti, Roberto
