This is my second album of powerful tunes, more refreshing than the first 10 MP3 Songs POP: Piano, EASY LISTENING: Love Songs Details: I am a solo artist and perform at coffee shops, festivals and special events. When I make an album I have to hire musicians. The producer of this album is Dan Gift, I met Dan thru my piano teacher of nine years Judy Sinsel. He suggest Blue Moon Studios (2bluemoon.com) were he spends alot of time helping and hanging out. We hired the drummer Linda Dauwalder-Dachty I gave her my music to study and she came in prepared and we just clicked. After that we hired Neal Havener for songs (4,5,8)to do the synthesized strings on his keyboard since he is a pro. However, I was able to learn enough about synthesizing and added strings on songs (1,2,3). Dan Gift worked on rhytym and lead guitar. Nathan Hartley supplied the bass. My best friend Brandi Messer sang backup vocals (1,2,5,6). The album was engineered and mixed by Paul Conaway and Bill Heingartner. Mastered by Bill Heingartner. All the people involved in making this ablum worked many hours over what I could pay,for that I am grateful. They are true musicians they did it for the music not the money. I also want to thank Brian King of Cubberly Studio (cubberly.com) he also spent extra hours on the photography and design. The production of the CD was done at MMS-mmsdirectwhere things could not have gone any smoother.\*\*\*\*\*HIDDEN TRACK BEAUTIFUL WATERS IN FRENCH AT END OF ALBUM.
