

Mp3 Barry Thomas Goldberg - American Grotesque

[DOWNLOAD HERE](#)

Indie Rock 11 MP3 Songs ROCK: Folk Rock, ROCK: Americana Details: NEW...."Remember New Orleans" free download of Goldberg's new tribute song to New Orleans at ironweeds.com Album Description Raw,honest and riveting rock n' roll to its core. Barry Thomas Goldberg, one of the finest undiscovered songwriters releases his third album in three years. Poetry and rock n'roll. Primitive elegance. "...raw,wounded songs of an American outcast." "...full of biting social commentary and songs of dissent." Chris Roberts, Minnesota Public Radio "Kicking off with the visceral rock 'n' roll attack of the title track, this record only gets more interesting and controversial as the grooves fly by." "File this one right up there (for subject matter as well as musical savvy) with the likes of Leonard Cohen, Springsteen, Curtiss A and Iggy Pop. Voices like Barry's are needed now more than ever-as much for the thought provoking materials as for the healing they insist upon." Tom Hallett, Pulse "Straightforward old-school rock with a vibrant edge." "Goldberg's deep, cigarette-stained voice brings the late Warren Zevon to mind, but there's an added Graham Parker-like snap and snarl to his delivery and something Dylanesque about the whole carnival-like enterprise..."
