Mixture of alt-pop melodic tunage reminisent of NY Detroit British era late 60's to the late 80's with a twist of right now. Bowiesque at times and trippy at times and a little punkish at times. 14 MP3 Songs in this album (55:44)! Related styles: POP: Psychedelic Pop, POP: British Pop People who are interested in Pink Floyd Alice in Chains David Bowie should consider this download. Details: Songs that are easy to remember and easy to sing along with, I have always liked that. The desire to write and record is driven by the fact no one else I can find is writing what I want to hear. That may sound pretentious but it's the the reason I bother to write. Many come close and many are better, yet these songs ring true all the same. I listened to Iggy, Roxy, Zeppelin, Floyd, Bowie, T-Rex etc. and this is what came out.
