DUBMATIX - ATOMIC SUBSONIC (release Aug. 29th 2006) Featuring: Freddie McGregor Anthony B Treson, Raffa, Howie Smart, Fredlocks Kwabena Reuben Dubmatix has created a bonafide juggernaut of steppers dub, roots reggae, roots dub and electro dub. Exclaim! writes, Dubmatix has created an assured, polished and individual release , while Riddim Mag declared, "Rarely, very rarely has any album ever knocked me for as great a loop as this one!" Dubmatix's dub has made waves across Canada, Europe and Japan where his infectious concoction of old and new school dub suggest that Jamaica isn't the only place to find the deep dark riddim.
