

Mp3 Fuzzpod - Fuzzy

[DOWNLOAD HERE](#)

Deep electronic grooves and ambient soundscapes just touches the outer limits of the fuzz on Fuzzpod's Fuzzy. It's a new wave of breakbeat electro-chill with sonic pulses layered over exotic soundscapes and atmospheres. 11 MP3 Songs ELECTRONIC: Down Tempo, ELECTRONIC: Ambient Details: Originally producing trance and techno under the moniker KiPSY, he saw some success with his releases on MP3.com. Today, he is producing his own sound of chill-breaks and laid-back grooves under the name Fuzzpod and has released an ep and a single. This is his new full release titled appropriately "Fuzzy". The music is best described as breakbeat electro-chill mixed with elements of downtempo. Each song takes you on a different journey in this continuously mixed and produced cd. Influenced by the psychedelic sounds found on german and european imports, there is a very electronic element to Fuzzy, yet it's organic at the same time. When not in his Fuzzy Uniform he likes slipping under the downtempo groove as DJ Xanx and is known for spinning a set of psy-chill and ambient grooves. Xan-X (the dj) aka Fuzzpod (the composer) is part of the Ambient Groove collective Ambi-Sonic in San Francisco. He is involved and exposed to the chill scene and other artists whom he works with as well. Fuzzpod's current side project, The Sound Capsule is getting a name of their own in the San Francisco chill scene and when not playing live, is remixing talented artists like AGK. People who are interested in The Orb Autechre Shpongle should consider this download.
