Intimate, soulful vocals and lyrics surrounded by Wurlitzer, Gibson Les Paul, and a roots based, laid back rhythm section. 7 MP3 Songs ROCK: Roots Rock, FOLK: Modern Folk Details: Jeremy Lichter is a Berkeley Music School graduate. But, long before that achievement. He was a seasoned songwriter, and session musician. Raised in an unbelievably gifted family. Music being the fabric of the entire household. His mother, an accomplished musician in her own right. Introduced Jeremy and his also very talented older brother, Eric to music during their pre-birth's. They each can play a multitude of instruments. In fact, this entire disc is recorded with Eric and Jeremy playing all instruments. All writing, production, engineering, and arrangements also are handled entirely by the brothers. This first "solo" release by Jeremy comes as almost a bittersweet victory due to the heartbreak which was the prime inspiration during the writing process. Life is filled with squares which we enter into our journals and travelogues that are our life lived. This is one of his first. So, settle back or go for a drive alone and take in the melodies, harmonies and pure open soul of this very special person.
