Songs of love and heartbreak. True to the fullest essence of real life 5 MP3 Songs POP: Delicate, ROCK: Acoustic Details: Remember how pissed you were after that long time lover broke your heart over something stupid???? Or they were just being stupid????? Joe Bucholz does. His songs of love, break-up, angry break-up and sheer life are summed up in his newest e.p. "What Makes You Tick?". Joe hails from the Black Hills of South Dakota a small town boy with the same problems as a big city boy. "We've all been wronged or have wronged somebody or have wished they were miserable after a break-up. Thats where I get my songs from is real life stuff.". Now Joe is not a negative guy at all but sometimes in life we as poeple think vile things out of anger. "Look I get myself into alot of trouble by saying whats on my mind. But everyone thinks it so I wish they would stop blaming me for it you know (hahaha)". "But I do like love songs too in the end of it all I am pretty sappy and a big cuddly bear in truth I have written more love songs than frustrated at my ex songs." "What Makes You Tick?" is very stripped down melodic acoustic music. A frim believer that songs are words and music the lyrics of this record read true. " The great thing about this record is that I whole heartedly listened to my friends relationship problems and couldn't let them go. I had to do more with them and with his permission here it is. Everything that seems way too vile for human ears was said to one person or another. So it is true to life music. Which I am a firm believer in". Listen for yourself and you tell me if you can't find one thing on this record you haven't felt, thought, or lived. This is as true to life as it gets.
