Details: 'TRUE' is the title of Lady Loves' second CD released on her record label-Shaw Elite Records. Lady Love Stated, 'I had more fun recording this CD. Just her like with my other CDs, I wrote all the songs and raps, but I got to produce almost all of the tracks on this C.D. 'I can't put into words the joy I got from being able to produce music the way I feel it in my soul. A lot of the old me came through with the recording of my 'TRUE' C.D.' When I recorded my CD 'Return To Love', I was filled with so much hurt and confusion that the stress carried over in my music. During that time, I did not know how to deal with my pain. The only thing I knew was to keep recording and making music. Lady Love also enlisted the talents of her friend and producer Stay Strap, of Mansion of Mayhem Productions. Strap produced 3 songs her 'TRUE' C.D. 'Recording with Strap was not easy at times. I still had a lot of pain and hurt in my heart hurt over this guy, and I was not able to focus 120 on my music. He (Stay Strap) listen at frist but, when he saw how much it was affecting our recording sessions in a negative way, Strap became hard on me. He stopped being Strap my friend and became Strap the producer...I thank him for that'. Lady Love also gives producing credits to Anthony 'Blaze Right' Davis of Trillent Beatsfame, for producing the beat for the song 'Baby Whats Up (all about you). Lady Love has grown as an artist and a producer. Not only is she the CEO of her own record label, she also is owner of her own publishing company. For Lady Love, The world is truly hers. Look for more music from this talented Lady.
