At the age of eight, I began writing songs of passion. My musical influences included Stevie Wonder, Lenny Williams, Donny Hathaway, and Al Green. At, an early age I began performing spiritual songs at The Coming Of Christ Full Gospel Church of Italy, Tx. I continued writing and singing until age twelve, when I recorded my first original song with a great friend of mine. From that point on in my life I knew that the music business was something that I had to make a career of. I fell in love with the fact of being in the studio creating personal hits. By the time I graduated from high school I'd recorded over twenty songs, and had written over a hundred songs and had also been apart of at least three local musical groups. After, realizing that God gave me this talent to touch and ease the world, he open up the hearts of two very important guys; Johnny W. Gross and Lloyd Pierce. These two guys came to me and we as a threesome started and founded Solfulhouse Records Inc. In the year 1999 we recorded and independently released my debut album as a solo artist; My Heart, My Soul. The album instantly grabbed the hearts of many in the East Texas area. We continued promoting and selling the album consistently for about twelve months for which we've sold hundreds. Since then God has Blessed me (Dave Hall)'skeebo' to musically produce for a number of upcoming artist from the Dallas Metroplex, Atlanta, and Los Angeles areas. Solfulhouse Records, we remain independent and have been blessed to help other artist such as Tiffany Tatum and a host of others to pursue the dreams of their lives. As, for me SKEEBO, I've been sought after by labels for the past couple of years and am now recording my new album under my real name "Dave Hall" which will be released early next year under Solfulhouse Records and managed by ShadowWorld Management Co. of Los Angeles, Ca. I must remind you that the album, My Heart, My

Soul is truly an album that will be sought after for many years to come, and to have this album in your collection, will truly satisfy your urge for real R&B/Soul music.
