One of the "new breed" of singer/songwriters with an amazing blend of progressive style, soulful melodies, and heartfelt lyrics. 7 MP3 Songs FOLK: Modern Folk, ROCK: Folk Rock Details: I'm a Denver-based singer/songwriter. I'm influenced by everything I see, hear, taste, smell, and feel. It's all woven into the fabric of the music. Writing songs, performing, and recording are my passion. I hope you enjoy these tunes. The price is just a way to make up for the cost of production and sales. I'm more interested in getting my craft out there, having it heard by you and your friends, and having the opportunity to continue making melodies. Thanks for listening! And leave a review/feedback if you get a chance. todd
