Infused by honky tonk with a rockabilly, very similar to other greats such as Johnny Horton, Jimmie Rodgers and Hank Williams Sr. The songs are classic country-oriented with roots in traditional folk, spiritual and blues. 13 MP3 Songs FOLK: Modern Folk, BLUES: Guitar Blues Details: I was born into a family of five siblings and i love'em all. But in this life the creator allows us to some Bro's too. I am privileged to call Soretoes by Bro. His call me uncle and my kids call him uncle...Nuff said I was a biker before it became a fad and have many Bro's that ride. I make atleast two major runs each year to spend time with these Bro's and our Sisters. We just relax and enjoy the day we have been given. My biggest fans have been these bro's, sisters and friends I have made on these trips. They tell me what they like and I perform for them and they help me come up with new ideas for my next CD. My songs are classic country-oriented with roots in traditional folk, spiritual and blues. This genre of song is almost totally extinct today, but i hope you will find my range of subjects and versatility attractive and irresistible. My vocal style and songs might be a learned taste, but once you develop it, I hope it becomes a difficult habit to break.
