Let me ask you: * Are you frustrated with not getting all the traffic you want to your website? * Are you suffering from information overload hearing about all the latest and greatest "traffic tactics"? * Are you fed up of people trying to convince you to max out your credit card and spend it on Google clicks? * Are you sore about getting your sites thrown out of Google, or even just dropping in the search results? Well, let's be frank - most of the tactics talked about online are either outdated, only work for a few months, cost a small fortune, or need a PhD to understand! Well - this page is different... and here's why: The five traffic-generating tactics I'm going to talk you through are guaranteed to still work like gangbusters in three, even five years time. How do I know? Well, of course I can't predict the future, but -- these are tactics I personally use every day in my business. I've used these tactics online for years to build just one

of my sites up from nothing to well over 1,000 visitors a day. And I'm going to keep using them until they stop working, which I'm sure won't be any time soon. These are NOT fly-by-night tactics. And here's the best bit - these tactics are 100 FREE to use... 5 Easy & FREE Tactics That Flood Your Websites In Visitors Before I talk you through the tactics, let me be clear - what I'm going to introduce you to is a business plan. This product does NOT go into the nitty-gritty details. Why? Because details change from one week to the next. A few days after publishing, this product would already be out of date! What you're getting is a birds-eye view of my traffic generating strategies. But, that's not all - I'll talk you through exactly where to go to get fully up to date with updates for free. The exact same places I go to keep up to date with the ever-changing online landscape. You get my powerful traffic-creating tactics in the form of six videos you view directly at your computer. I've bundled these six powerful videos into a product called 5 Easy Ways To BOOST Your Website Traffic For Free: For PC's Only - Not For Mac I must tell you that this eBook only works (to my knowledge) on PC's. If your computer is running Microsoft Windows, you won't have any trouble at all viewing this eBook successfully. However, if you're on a Mac you'll more than likely have trouble viewing it. A Great Product + Resale Rights = BIG Profits For YOU I'm sure you know there's a ton of eBook resale rights around these days. BUT - if you really want to make money selling an eBook you have rights to, you need: * A very high quality product. * An effective sales letter. * A professionally designed website with great looking graphics. Now - this eBook is brand new. Get a copy now, start promoting it immediately and you'll make the most profits. Wait a day or a week or a month, and literally more and more profits will pass you by. Now, I'm certainly not saying this to brag, but I wrote this sales copy, and my copy has sold hundreds of thousands of dollars worth of products online, if not millions of dollars worth. AND - from very affordable eBooks like this one. Don't believe me? Then search Google for "Louis Allport" and see what you find. Now, the Google index does fluctuate for many reasons. But right now (as I'm writing this), I see up to 804 websites selling my products. And what's more - when I search Yahoo I see up to 2,820 selling my products, and even more on MSN! For whatever reason, Google just gives a small sample of what's actually happening out on the web. Even if each one of those sites is selling just one copy of a \$20 eBook a week that I wrote the copy for, that adds up real quick. My copy and products have made many people a LOT of money over the past two years. They can make YOU money too - all you need to do to get started is grab a copy of this product. And just by having a copy of this product, you can sell it or present it pretty much any way you choose. You can even turn it

into a physical product by putting it onto a data CD or a DVD. This would make it a good way to sell on eBay. It's totally up to you! If you're interested in the resale rights and selling this product yourself, I'm sure you realize that the sooner you get a copy, the more you will profit. The longer you wait, the more your competition will pick off your customers.
