

Arrowheads Early Man Projectile Point Of North America - Ken Owens

This new and exciting book on arrowheads is different from others you have read. It starts with the Indians' ancestors coming to America and the culture timelines from 28,000 years ago to 1,000 years ago. It relates Paleo, Archaic, and Woodland peoples and the stone artifacts they produced. Next, there are 121 points described and identified. Following that is a section on Southwest Paleo and Archaic points, something which has not been included in other books on the subject. Most of the remainder of the book features projectile points in full color, with collector values. There are many scenic photographs throughout the book showing how Indian country looked long ago. A digest of sorts, this book contains information you would have to look in several books to find. It's a must-have for Indian artifact and arrowhead collectors everywhere. 2009 values.
