[DOWNLOAD HERE](#)

Comes with three BONUSSES! If you are ignoring the offline market you are ignoring a huge profit potential that is virtually untapped. Learn how to create beautiful professional looking websites - with no special skills required - and then turn around and sell these websites to the offline market. Let's look at marketing (specifically flipping websites) to the offline market: - First of all - you will not be competing with

the gurus as this is not something they are even considering. They already have everything established online and have no need to target this area. - Secondly - when it comes to flipping websites virtually everyone is doing it online - so you have a wide open market. - Third - I am going to show you how to target a market where you will likely have no competition from anyone. I will show you how to use online tools to find offline clients that need and want to do business with you - they just don't know it yet. - Fourth - Marketing to the offline world is not much different than marketing to the online world. You still create the website online. You still accept payments online (and you can accept offline payments too). You deliver the product online since it is a website. The only difference is how you market to the offline prospect - and I will show you exactly how to do that. - Flipping websites is very profitable if done right, and I have found an effective method to make a recurring income from flipping sites to the offline market and I will share it with you in this ninety minute video series. - I will even include the letters I used and the website text I put on my sites when marketing them. It is virtually copy and paste. Here is just some of what you will learn in this video course: \* How to find offline prospects using online tools \* Two methods to create a professional looking website to flip \* How to market to the offline prospects. \* Find out the best type of business to market to. \* How to create a recurring income from your efforts. And much more! BONUSES: BONUS #1: Article Brokering Report - with Master Resell Rights: Article Brokering is All About: Charge More, Work Less - It's What Everyone Needs To Do!
