BOP Funk, Blues, Jazz, Latin with a twist of Lime. 6 MP3 Songs URBAN/R&B: Soul, JAZZ: Jazz Vocals
Details: BOP! A name that expresses the entire sentiment of the band. When they play their fresh new groove on some of your all-time favourite's, you can't help but BOP. Move back the chairs and find a place to dance, swing your hips to their spicy Latin beat, or groove to Mustang Sally. The band has been performing together for just over a year, but the combined professional skills they bring comprises nearly 80 years of musical experience. Their short history is offset by the wide variety of venues theyve played, and the strong supportive fan base they have gathered gives testament to their talents. The bassist, Bruce Baycroft, lays down some deep riffs to anchor the band, The horns, Terry Kosowick Shawn Smith, play a tight line weaving in and out of the melody...stretching boundaries, and always returning back to the original tune, lead guitarist, Daniel Cook, plays with a fluidity that takes you on a journey, you can't just listen, you experience it, along with drummer Max Jones, who spices, funks, swings, and keeps the party moving all night long, and finally their lead vocalist, has an electrifying energetic stage presence. Maureen Washington adds power under great control to each piece. She can belt out with the best of them, and then tone down to a sultry, smoky, intimate, ear-stroking kind of sweetness unlike any other singer in Northern BC. When BOP plays, people have fun. The band will dash headlong into improvisation but does not stray from their prime purpose: to be the most fun you can have with your clothes on. A performance is usually filled with audience interaction, witty stage banter, and an atmosphere that makes you wish you had told more friends to come out, while being glad you didn't so you have something to gloat about. From the first few bars, you know you are in for a real treat. Push the seats back and make room to dance, it is going to be a fun night! BOP covers the broadest spectrum of musical styles and some of the greatest songs of all time that somehow culminate into a fresh sound. But

cover tunes are only part of their set list. The band further showcases their talents as they perform their own original music, a fusing of smooth sultry jazz with hot Latin beats, down-home blues and energetic funk. With BOP, you dont listen to music, you experience it.
