Funk, blues, and pop rock inspired. 10 MP3 Songs POP: Today's Top 40, ROCK: Classic Rock Details: FlowHead is the uniting of three basement studio freaks from Wisconsin. This group started out playing Hendrix and rearranging oldies to a unique rocked out style. Those years have evolved into their first original recording, FlowHead. When listening one obviously hears the funky rifts with a touch of Hendrix, a touch of Steely Dan, and even a touch of Prince. There are a lot of 70s influences, cool stories, and political statements. FlowHeads influences have led them to create an array of styles from Rock to Funk, to Jazz, to Ragae, all with lots of hooks, to what might have created a new category in music called American Music. Sing Along!
