KASHIOUSs incredible voice grows from its deep earthy roots of clay and soars to the heavens with an amazing tonal span that clearly defines the term soaring tenor. Thats Soul. Born and raised in Washington, D.C., KASHIOUS found his start in a truly gifted musical family. His mother, brother and sister, all gifted vocalists, shared their love of music both in the home and at church. And like many of the R&B greats before him, saw that deep-seated love and attraction to all thing musical blossom with his exposure to the true grit and soul baring performances of artists like B.B. King, Ernie Isley, Marvin Gaye and Aaron Neville. Its art from the heart that transfixed him and influenced his style. As a child, KASHIOUS would listen to their music over and over while strumming his guitar until he had the chords down perfectly. He had to know the same joy and depth of feeling on a personal level that he experienced when listening to these greats. He approached each performance from every angle, which meant he taught himself those performances note for notenot only on guitar, but on the drums, the bass and the keyboard, too. But its that voice that sets him apartthat raises him to the rarely achieved level of expression best exemplified by his mentoring artists works. Singer, songwriter and musician, its KASHIOUSs voice that can bring the unprepared listener to his or her knees; it is that powerful, that extraordinary and that very, very rare. Its that rare voice that cuts from the earthy heart of his existence to reach legendary heights of expression.

Yes, hes been compared to greats like Luther Vandross and Marvin Gaye, but the quality and beauty of his voice belong to him, and him alone. In his first R B single, Lovz Eternal, he speaks with compassion and pain, of enduring that dark place more than necessary. His vocal harmonies only add to its impact. Other songs such as Bad Luck and The Way I Am range in genres blending funk, jazz, and soul. Its been no easy journey. With the encouragement of his family, KASHIOUS left Colorado where hed spent some fifteen years of his life, and made the move to San Diego in 2005. All in pursuit of his lifes dream. In October of 2006, producer Rusty Gordon discovered this amazing talent, and believed that this was a talent that had to be heard. Under Gordons direction, KASHIOUSs dynamic vocal range and songwriting abilities are showcased on his debut CD, Kashious. Hes currently in the studio working on his next CD, with a target release of August 2007, and preparing to tour in fall 2007. You have begun your journey into KASHIOUSs music...For any lover of heartfelt musical expression, its a journey well worth embarking upon!
