Angry electro-industrial goth featuring an outspoken female vocalist mounting a direct verbal assault on society. Sounds like early NIN/Manson with vocals from an angry Hole/softer OTEP. 16 MP3 Songs  
ELECTRONIC: Industrial, ELECTRONIC: Electro Show all album songs: Deathwish Songs Details:  
Deathwish takes sacrilege to a whole new level. Fed up with society and the weaker side of human nature, this one-woman band breaks boundaries with her own brand of electronic poetry. Posing a full-frontal attack against censorship, religion, overpopulation, and addiction, this album confronts societal decay and humanity's insatiable desire for self-destruction. Including 16 tracks of unregimented, poetry-based dissidence, deathwish does not rely on traditional verse-chorus-verse patterns or track lengths. Taking a direct lyrical approach, methoDismal does not waste time repeating itself. Supplying a heavy dose of bass, drums, and percussive elements, deathwish is a collection of dark, angry music with something to say.
