3 studio heads making something a little downbeat/funky/jazzy/noisy, but always with nice beats. 16 MP3 Songs ELECTRONIC: Funk, ELECTRONIC: Down Tempo Details: When not tweaking tracks or searching for beats for unichrom projects we are usually involved in producing, remixing or mastering tracks for other artists. Each of the guys has their own set up and work on tracks separately. Once a month or so we get together and swap tracks for the others to contribute to, mix up or just generally turn upside down.
