Cedar Chess Table

Woodworking Plans

Our cedar chess table stands measures 43" wide. It was designed specifically for our chess pieces, however it will work just as well with any chess or checkers pieces which will fit the 5" squares. At 18" high it allows you a good view of the board when sitting or standing, and does not require you to strain your back whenever moving a piece. It will also double as a comfortable patio table when the need arises. Strong, and versatile. What more can you ask from a chess board?
