Law, crime, and justice are among the most salient issues in any country. This is especially true for a transitional nation like Russia that is facing tremendous social, political, and economic changes, many of which create conditions conducive to crime. This volume, with chapters by highly respected scholars in several disciplines, provides a comprehensive sourcebook of scholarly analysis of the effects of these changes on legal developments and rule of law in Russia, its changing patterns and nature of crime, and its criminal justice system.
