Make All Your Websites Interactive, Attract Tons Of Free Search Engine Traffic & Start Building A Huge Laser Targeted Email List... Instantly Site Comments Pro will instantly integrate with any html or php web page and allow your visitors to easily interact with your content and each other through discussion right on your webpage. The script is extremely simple to use and can be added to any or all of your current or future html / php web pages. Some of the most successful websites around today use this very same technique and it makes their sites so sticky, people cant help but keep coming back... Any idea why YouTube is so much more popular than Google Video (and ultimately why Google bought it over)? Because YouTube allows users to participate and interact with the content and each other, just as MySpace does. This user generated content is what makes people come back to these sites over and over again, they just cant get enough of them! Now... with Site Comments Pro, you can finally add this same interactivity and stickiness to any of your websites, and instantly start profiting and benefiting from free user generated content! Here are just some of the ways you will benefit when you start using Site Comments Pro today! Search engines will keep returning to your site and will place you higher in the

SERPs (search engine results page) because your sites are constantly being updated with fresh and unique content! Your visitors will be encouraged to come back to your site to read the comments, giving you another opportunity to grab their attention, sell them your products, or have them click on your ads. Basically, making you more money! You'll reduce the number of simple support request emails as your visitors can ask questions right on your website and anyone else can answer! Differentiate your private label article from the rest. Now the search engines won't punish you for duplicate content since your articles are unique and are being updated regularly. Allowing your visitors to contribute makes them feel part of a community and not just a random visitor unable to have their say. So they will value your site over your competitors. You can collect the names and email addresses of everyone who leaves a comment, so you can build a targeted email list that you can follow up with whenever you want! Use the script to collect testimonials after people have ordered your products. Add it to your thank you page and ask your customers to tell you the exact reason they ordered. With this information you will be able to update your salesletters, highlighting the most important benefits! Now watch your conversions skyrocket instantly! Interactive websites are the future of the internet, upgrade your sites now and set yourself apart from the competition.
