ABORT SCENE can be described as rationalhardcore (essentially libertarian hardcore), with many songs structured in the fashion of Germs, Circle Jerks, Minor Threat, Bad Brains, Misfits, TSOL, and similar bands, but has also been exploring other extensions of the classic hardcore style. Electronica has played an increasing role, often placing the rhythmic vocals of hardcore atop hardcore-electronica crossover sounds. Lyrically, ABORT SCENE strives to be an antidote to the effects of MDC, Bad Religion, Rage Against The Machine, and other artists spewing leftist views and popularizing criminal agendas. Especially when combined with The Yellow Day Brigade's catalog, ABORT SCENE has a strong bid for the title of most prolific explicitly paleolibertarian music artist. Currently serving as the flagship artist of PhoenixHeart Records. People who are interested in Atari Teenage Riot Bad Brains Beastie Boys should consider this download.
