Dreamy acoustic tunes rooted in folk but unique in their intricate, often jazzy harmonies and instrumentation. Think Nick Drake, Hem, and Joni Mitchell re-imagined by Sondheim. 9 MP3 Songs

FOLK: Alternative Folk, POP: Piano Show all album songs: Well of Good Hope Songs Details: Raised on classical music, Chris Nelson of Ann Arbor, Michigan, colors his folk and jazz-pop tunes with intricate harmonies and rich arrangements. Occasional brass and woodwinds subtly mesh with Chriss piano, guitar, and smooth vocals. Well of Good Hope is a home-studio album by an artist who prefers to sidestep the traditional music business and devote his creative energy mainly to songwriting. In an era when self-expression is valued over craft, Chris values both and clings to the Great American Songbook tradition of polishing a song into a gem. Chris Nelson is a winner of the 2007 Great Lakes Songwriting Contest.
