Dob:may 24 1987 Marital status:single Interest:Basketball,Music,Discjockey webdesign About; DJsmoothth IS 18 years old and is finshing up highschool he will be graduating on june 10th. And will be attending vincennes university He started off djing when he was 12 years old with just working with tapes and blending tapes together. Then one day he discovered a way to put his voice on cd. And he would do it all the time. But before that he would record his voice on tape. In his freshmen year of highschool he began to make trance n techno. He was already making beats anyways on tables. But he started using fruity loops and Accoustic beatcraft. He also started doing online broadcasting and making mix tapes full of hiphop and rnb.Djsmoothth also discovered something that he could do. He discovered that he could write poetry at that time he didnt really know how to talk to girls in his freshmen year. He had a first real girlfriend that relationship lasted untill the summer and her friend broke them up over jealousy. In His smoothth sophmore year he got involved in Radio/tv where Mrs.Mcgee the Radio/tv teacher helped DJsmoothth speak on the mic better. Well really taught him the right way to speak on the mic. He also learned a whole lot of things from His teacher. For instance he learned how to run a camera and edit movies and all that. In his junior year he took Radio/tv again this time doing group projects and passing with good grades. He also started passing out his mix cds out to students at hirsch at this point and time juke was one thing smoothth hadnt figured out yet. He had always wondering how they did. The next year which is his senior year he took radio tv for a 3rd year and learned about juke music at the end of September from Dj pnutt. It was DJ roc who really helped smoothth to make traxs.Dj roc and dj smoothth

are one of the hottest djs
