Uniqueness of sound combined with God inspired lyrics, Rosemari is a fresh taste in Christian contemporary music. 9 MP3 Songs GOSPEL: Contemporary Gospel, POP: with Live-band Production

Details: Singing her first note before she could walk, it was no surprise that Rosemari would involve herself in music and find her calling to this ministry. Growing up, Rosemari led worship at her home church. Later on, she took part in the Jericho Falls Band, a ministry aimed at reaching out to today's youth through praise, seminars, and conferences and in First Light, a Christian a cappella group at Rutgers University. Through this exposure, and with the daily struggle of finding identity and faith, Rosemari discovered how important Christian music was to her, and how it could possibly affect the lives of others. She eventually realized that God was telling her to take part in this ministry and go full force. "God has always been the source of my inspiration. I pour out my prayers through praising Him. Ever since I committed myself to Him, God has led me on a journey; He has done remarkable things in my life, and He continues to amaze me. I would like others to take part in this journey and experience His love, forgiveness, and grace. I pray that this worship compilation will encourage listeners' faiths in glorifying God, our Father." Rosemari's uniqueness of sound combined with the maturity of her lyrics captured the attention of Acera Entertainment. First Love is her first album and will be released early August 2004.
